

# RISHABH OSTWAL

+91 6266252581 | ostwalrishabh0817@gmail.com | LinkedIn | GitHub | Portfolio | Mandsaur, Madhya Pradesh

## EDUCATION

**Mandsaur University**  
*Bachelor of Technology in Computer Science and Engineering*

Mandsaur, India  
2024 – 2028

## TECHNICAL SKILLS

- **Languages:** Python, JavaScript, C/C++, SQL
- **Web Development:** React.js, Tailwind CSS, Bootstrap, HTML5, CSS3, Node.js, Express.js, REST APIs, JWT, MongoDB
- **Tools & Platform:** Git, Github, Postman, VS Code, MongoDB Atlas, Cloudinary, Vercel, Render
- **Core Competence:** API Development, Authentication & Authorization, Database Design, Problem Solving, Responsive Web Design

## PROJECTS

**Client Proposal Builder** | React, Node.js, Express, MongoDB, JWT

- Developed a proposal management system with secure JWT authentication.
- Designed REST APIs supporting complete CRUD functionality.
- Implemented protected routes and MongoDB integration.
- Developing responsive React frontend with backend API integration.
- Export proposals as professional PDF documents.

**Manglanam E-Commerce Platform** | React, Node.js, Express, MongoDB, Cloudinary

- Built a production-style e-commerce platform for a spice brand.
- Implemented authentication, shopping cart, order management and product dashboard.
- Integrated Cloudinary for optimized media uploads.
- Deployed frontend on Vercel and backend on Render.

**Construction Attendance System** | React, Node.js, Express, MongoDB

- Developed attendance tracking software for construction workers.
- Built secure authentication and attendance management.
- Created admin dashboard for worker and attendance records.
- Connected frontend and backend using REST APIs.

## EXPERIENCE

**Full Stack Developer — Personal Projects**

2024 – Present

- Built multiple MERN Stack applications from scratch.
- Developed secure REST APIs with authentication.
- Integrated frontend applications with backend services.
- Practiced Git-based version control and deployment workflows.

## ACHIEVEMENTS

- Participated in 10+ Hackathons
- Built multiple full-stack MERN applications
- Currently solving Data Structures & Algorithms problems
- Continuously improving React, Node.js and backend architecture skills

## COURSEWORK

- Data Structures
- Database Management Systems
- Operating Systems
- Computer Networks
- Object-Oriented Programming
